Trim & Molding

We offer a complete selection of coordinating trim and molding that compliments your floor's textures, species and colors, providing the finishing touch.

Important Information

Inspect ALL materials carefully BEFORE installation. Wood is a natural product containing natural characteristics such as variations in color, tone and graining. Some variation in color is to be expected in a natural wood floor. It is the customer and installer's responsibility for final inspection prior to installation. The warranty DOES NOT cover materials with visible defects once they are installed. The manufacturer - retailer will not be responsible for claims arising from flooring that has a greater range of grain / color variation than found in the showroom display samples.

Please note: Extended exposure to natural light can alter the patina of your wood floor.

For the most current warranty and installation information, please visit our website at www.lmflooring.com.
